

SpacePilot™ PRO

The Ultimate Professional 3D Mouse

LCD Workflow Assistant

The **full-color LCD** delivers at-a-glance visibility of e-mail*, tasks, calendar entries and function key commands ensuring quick access to key information without interrupting your workflow.

* Microsoft® Outlook® 2003 or later.

Powerful Application Control

Five new fully customizable, dual-function **Intelligent Function keys** provide instant access to 10 frequently used commands. SpacePilot™ PRO recognizes the active application and work environment and automatically assigns the appropriate commands. The color LCD provides visual feedback on function key assignment ensuring an optimized workflow.

Advanced MCAD Navigation

SpacePilot™ PRO features the most advanced six-degrees-of-freedom (6DoF) sensor technology. Gently push, pull, twist or tilt the **compact controller cap** to smoothly pan, zoom and rotate 3D models. It's like reaching into the screen and holding the model in your hand. The second generation **QuickView Navigation Keys** provide fingertip access to 32 standard views giving an unparalleled level of control that encourages model exploration leading to improved error detection and design quality.

Superior Comfort

The soft coated, sculpted **wrist rest** positions the hand perfectly while the **compact controller cap** guides your fingers into the ideal position for precise and effortless control. The most frequently used function keys are conveniently positioned, ensuring a comfortable working experience, even for the longest design sessions.

Design Excellence For Engineers

The challenges for today's CAD-intensive business are many. The demand for more advanced products, a compressed time to market and the focus on more efficient development cycles all place increased performance demands on the CAD professional.

SpacePilot™ PRO is engineered to meet these challenges and to excel in today's most demanding 3D software environments.
