

DREAM IT. DESIGN IT. V-FLASH IT.

At your project meeting this afternoon, you validate the idea you had this morning. You test it. You tweak it. Then you model it again.

With the V-Flash® Desktop Modeler, you can use iterative prototyping to visualize, test, and validate concepts faster than ever. With the power of instant prototyping on your desktop, you'll have accurate hard plastic parts right at your fingertips. Outsourcing delays, build queues, and timely cost approvals will no longer stop you from bringing your designs to reality.

Fast, compact and affordable.
